The Secret Holocaust Diaries

This updated edition includes a new preface by Alexandra Zapruder examining the book's history and impact. Additionally, an in-depth, interdisciplinary curriculum whose accounts of daily events and often unexpected thoughts, ideas, and feelings serve to deepen and complicate our understanding of life during the Holocaust. This enhanced e-book. Featuring a wealth of content including photographs of the writers and their families, images of the original diaries, artwork made by the

The Holocaust in Thessaloniki

This stirring collection of diaries written by young people, aged twelve to twenty-two years, during the Holocaust is given new life in

Language of the Third Reich

Collection of essays exploring the controversies surrounding images of the Holocaust.

Voices & Views

Omer Bartov, a leading scholar of the Wehrmacht and the Holocaust, provides a critical analysis of various recent ways to understand the meaning are transmitted from one generation to another.

The Holocaust

The denial of the Holocaust has no more credibility than the assertion that the earth is flat. Yet there are those who insist that the death of six million Jews was a massive mistake or a fabrication. Deborah Lipstadt documents the development of the Holocaust, as well as the continuing debates about its significance.

Documents on the Holocaust

This new collection of original Holocaust documents and sources brings readers into direct contact with perpetrators and victims. The

The Holocaust: From Intention to Action: The Sources of the New Totalitarianism

Holocaust-era Assets

Provides hundreds of entries and over 250 photographs of such Holocaust related topics as antisemitism, euthanasia, and mischlinge,
detailed information about the universe of camps, sub-camps, and ghettos established and operated by the Nazis — altogether some 20,000 sites, from Norway to the Holocaust Memorial Museum, the monumental 7-volume encyclopaedia that the present work inaugurates will make available — in one place for the first time —

kaustos, "burnt") also known as the Shoah (Hebrew: , HaShoah, "catastrophe"; Yiddish: , Churben or Hurban, from the Hebrew for "destruction"), was the mass murder or genocide of approximately six million Jews during World War II, a programme of systematic state-sponsored murder by Nazi Germany, led by Adolf Hitler and the Nazi Party, throughout German-occupied territory. Of the nine million Jews who had resided in Europe before the Holocaust, approximately two-thirds were killed. Over one million Jewish children were killed in the Holocaust, as were approximately two million Jewish women and three million Jewish men. A network of over 40,000 facilities in Germany and German-occupied territory were used to concentrate, hold, and kill Jews and other victims. Some scholars argue that the Nazi state's intentions towards these others were not solely to exterminate them but to make them powerless, deport them to forced labor, and make them subservient and assimilated into the entirety of the Völkisch German nation. This definition also includes the discrimination, terror, and deportations suffered by millions of others. There is also much debate concerning whether the Nazi regime intended to exterminate Jews in the Holocaust and the possibility of a willful genocidal campaign. The majority of victim categories were not killed in extermination camps and gas chambers but were killed in summary executions, Star of David tattoos, and other forms of death. Of the murdered Jews of Europe, the great majority were killed in the East, in territories that were incorporated into the Third Reich through the process of territorial expansion during the Second World War.

Some revisionists, although they do not deny the fact of the mass murder of Jews, challenge the existence of killing centers and gas chambers, or try to absolve Nazi perpetrators or collaborator groups of responsibility. Many allegations attack the Jews in one way or another, and border on justification of the Nazi genocide. In Germany, the Holocaust is still a sensitive topic, and many people still deny or minimize its effects. The Holocaust is often used as a tool for political purposes, and there have been attempts to alter or suppress the historical record. The Holocaust is also a source of controversy in academic circles, with some scholars arguing for a more critical approach to the study of the Holocaust, while others continue to uphold the traditional narrative of a systematic and intentional extermination of European Jewry. The study of the Holocaust is a complex and ongoing field of research, and the debate over its interpretation continues to be a subject of scholarly inquiry and public debate.
